

Imagine There's No Country: Poverty Inequality and Growth in the Era of Globalization

by Surjit S. Bhalla

Imagine There's No Country: Poverty, Inequality, and Growth in the Era of Globalization. Surjit S. Bhalla. Institute for International Economics, Washington, DC. 2002. 298 pp. ISBN: 9780881323481. This book is available in paperback for \$24.95 and in Kindle for \$14.99. It is a comprehensive study that debunks several popular myths about globalization and its impact on poverty and inequality. The book argues that globalization has led to a significant decline in costs of transportation, communication, and production, which has improved intercountry competitiveness and broken down trade and cultural barriers among countries. This has led to a new era of globalization, which began in the 1980s. The book also shows that poverty, inequality, and growth in the era of globalization have declined dramatically, especially in the last two decades. The book is a must-read for anyone interested in the impact of globalization on the world's poor.
